

Kreative Beginnings

SAMPLE TIMELINE - TRADITIONAL

getting ready
1-2pm

I arrive just in time for hair and makeup to be finishing up, capturing all your favourite little details...earrings, shoes, the dress. I am also capturing shots of you and your girls getting ready. Then its the big moment, putting on the DRESS!

Second photographer will arrive to photograph the boys. We ask that groom be dressed in his pants and undershirt upon arrival.

ceremony
3-3:30pm

It's time to get married! Most ceremonies are 30 minutes long. Cherish this moment as it passes by so quickly!

family portraits
3:30-4pm

Family photos take place immediately after the ceremony. It's best to save all the family formals until after the ceremony because all family members will be present at this time. I will get a list of family arrangements you want ahead of time to make sure we don't miss any family members.

bridal portraits
4-5:30pm

I allot a minimum of 1.5 hrs to capture intimate photos of the bride and groom and bridal party portraits. These photos can be done at a second location off the ceremony site.

reception begins
6pm

Portrait time is now over and I focus on the main events of your evening starting with the bridal party entrance.

sunset photos
7-7:15pm

I like to sneak out with the bride and groom for 15 minutes to capture a few portraits at the BEST time of day ...golden hour. These generally turn out to be the couples favourite shots, mine too!

Second photographer will arrive to photograph the boys. We ask that groom be dressed in his pants and undershirt upon arrival.

first look & bridal portraits
3-4:30pm

First look photos are one of my favourite parts of a wedding day! I will find the perfect, most private location as possible for these photos. After you have had your time for first look and some romantic portraits, its time to invite the wedding party to share in the excitement.

ceremony
